Wrinkles Around the Eyes

Are usually caused by defective sight. Many women, and likewise men, look prematurely old from these wrinkles. The wrinkles in many cases can be removed by wearing correctly fitted glasses. To fit glasses correctly demands a thorough knowledge of refraction and the necessary instruments. We have both; hundreds of satisfied customers will say so.

A CLOSE CALL.

Wood House Caught Fire From Hot Ashes.

The wood house of R. M. Phillips, who lives on the corner of South Elm and East Lee streets, caught fire this morning and when discovered the fire had burned the house almost down. The wood house is situated about ten feet from the dwelling and the well house is even closer. Mrs. Phillips, though badly frightened, had the presence of mind to connect the yard hose with the bath room hydrant and kept a stream of water on the well house and dwelling which, had this not been done, would surely have caught. Some one turned in the alarm from box 53, corner East Lee and Arlington streets, and the Eagle Hose company immediately responded and extinguished the fire. The Protector Hose company's horse was on the street and did not reach the fire at all, though they were not needed. The colored reel team came out in full force but were too late.

The fire originated from a scuttle of hot ashes thrown near the wood house by a careless servant.

No damage was done except the burning of the wood house and a small amount of wood.

IT WAS STRICTLY BUN.

Performance of the "London Gaiety Girls" Disgusting in Extreme.

Vulgarity and profanity were the chief features of the performance of the "London Gaiety Girls" at the Metropolitan Opera House last night. It was coarse, dirty and disgusting throughout.

The programme called for two comedians. Two perfect sticks, without any merit whatever, attempted to fill the bill, one representing a female character. And such filthy jokes as they got off, and the disgusting capers as they cut were never witnessed on the Raleigh stage before.

Some awful bum shows have appeared in this city, but the performance last night was the bumpiest of the bum. Habitués of the toughest Coney Island joints would repudiate the performance of the "London Gaiety Girls."

The audience which was, of course, composed entirely of men and boys was very indulgent or they would have pelted these people off the stage.

In justice to the managers of the opera house, it might be well to state they did not play this show, but merely rented them the hall.—News and Observer.

The above show was billed to appear at Bogart's Hall in this city tonight, and arrived from Raleigh last night. After reading the accounts in the Raleigh papers, Mr. Bogart very properly declined to endorse the show, and was not going to let them play, but on their plea of having no money to get out of town, he at last consented to rent them the hall rather than have them strand here. The troupe plays on its own responsibility, and is not under the auspices or endorsement of the local management.

Letter from Manila.

Manila, P. I., Aug. 31, 1898.
F. A. Burgin, Greensboro, N. C.:

Dear Brother—We arrived here at noon today after a somewhat rough but safe voyage and found everything quiet, and steamed right up the bay to Manila.

We made the best and fastest time of any of the transports: no deaths on the way, and with but few exceptions good health prevails. We go ashore tomorrow morning.

The Dakotas go to Cavite. The city is under martial law, and all is quiet. In a skirmish on the 13th inst. 25 Americans were killed; Spaniards captured the Astor battery which was afterwards recovered by the Minnesotas. Gen. Merritt left last night for Paris, via Hong Kong, to be present at peace conference, leaving Gen. Otis in command. Food and water got very bad during last two weeks.

My captain is a regular and a West Point man. Will give you good description of this country as soon as I get stationed. My health is first rate and I hope to spend my enlistment here. Am in good spirits and will keep you posted as to what turns up on the island.

Regards to all.

Your brother,
Sam'l L. Burgin, Sergt.

A RACE RIOT AT DAVIDSON.

Med'cal Students and Negroes Had a Scrap.

WHITE MAN FATALLY INJURED.

And If Not Dead, Is Expected to Die Soon—Several Others Wounded—Democracy Is Humming.

Special to the Telegram.

Salisbury, N. C., Oct. 17.—It is reported here that a race riot occurred yesterday at Davidson between medical students and negroes, as a result of which one white man, a painter by trade, was shot over the heart by a negro and is, if not now dead, expected to die soon. Several were wounded. Further particulars of the trouble are not known here.

Everything is humming here for democracy. Things are hot.

There will be a big barbecue here next Saturday.

Distressing Scenes.

By Cable to THE TELEGRAM.

London, Oct. 17.—Distressing scenes at the office of the Atlantic Transport Co. continue today. Weeping relatives, mostly wives of members of the crew, besieged the office all day. Many bodies have been robbed by unknown persons. Dr. Fallows, an American, tucked a bundle of fifty-pound notes in his breast pocket when the ship struck. His body has been found, but the notes are missing.

Ironclad Squadron.

By Cable to THE TELEGRAM.

Paris, Oct. 17.—Enquiries at the office of the French Ministry of Marine confirm the report from Toulon that the ironclad squadron has received orders to prepare for sea. British war ships are practicing opposite the French post in Africa.

Fever and Frost.

By Wire to THE TELEGRAM.

Washington, Oct. 17.—There was another light frost in Mississippi last night. New cases of fever today are: Jackson, 8; Oxford, 1 death; Edwards, 5; Yazoo City, 6; Harrison, 12; Poplarville, 2; Tongaloo, 1; Meridian, 1.

Getting Critical.

By Wire to THE TELEGRAM.

Brocton, Oct. 17.—The fifth week of the latter's strike began today. The daily mass meetings are well attended and the strike is approaching the critical point.

Mrs. Capt. Folger Dead.

By Wire to THE TELEGRAM.

Washington, Oct. 17.—The navy department was advised this morning of the death of the wife of Capt. Folger, of the New Orleans. The cruiser left San Juan, for Philadelphia, Saturday.

Mrs. Lee Improved.

By Wire to THE TELEGRAM.

Richmond, Oct. 17.—Gen. Lee's son was allowed in the room of Mrs. Lee for the first time this morning when she showed the first signs of improvement.

Severe Storm.

By Wire to THE TELEGRAM.

Kansas City, Oct. 17.—A severe storm prevails in the south and southwest today. Heavy snow fell early this morning, followed by heavy rains.

Nancy Arraigned.

By Cable to THE TELEGRAM.

London, Oct. 17.—Nancy Guildford was arraigned today and remanded to await the arrival of important papers from the United States.

Zola in Paris.

By Cable to THE TELEGRAM.

Paris, Oct. 17.—Emile Zola returned to Paris at midnight. His coming caused no disturbance.

Have you seen those leather-lined thick soled box and vict men's shoes that are becoming so popular? You can see nearly a dozen different styles of them in black and winter tans at Thacker & Brookman's; most of the new shapes being made over the new London and English lasts. Prices are extremely low when the quality and style of these shoes is taken in consideration. \$2.50 and \$3.00 pays for a prime Goodyear, and they are selling two excellent lines of McKay sewed, leather-lined shoes at \$2.25.

NOTES FROM HIGH POINT.

The Local News From Our Neighbor Briefly Told.

TELEGRAM BUREAU.
HIGH POINT, N. C., Oct. 17, '98.

"There'll be a hot time in the old town tonight." A Dog and Pony show and a democratic club meeting will be the attractions. While the show will be good, democrats should never let that keep them from attending the meeting. Politics is more important than shows. There will be a democratic speaker present. It is not decided when we send in our items whether the meeting will be held in the Masonic hall or the Anchor warehouse.

Don't think because Robert Bencini and his little pony was in the parade today that he'll be in the circus.

The demons are not all dead yet. Saturday night some lowbred, contemptible specimen of humanity cut down several of the little trees on the graded school grounds with a knife. Can not some steps be taken to catch these lowbred cowards who are cutting bicycle tires, poisoning cows, burning houses, and cutting the eyes out of cats? Anybody that is mean enough to do such work as that would poison his neighbor.

It was so dark in town Friday and Saturday night's that you could hardly tell a democrat from a republican, had it not been for your olfactory organs. The Snow Lumber Company's well will not furnish water for them and the electric plant too. Why don't they run it into postholes and sell them to highest bidder and get them a new well?

Prof. Gentry's famous dog and pony show arrived yesterday and pitched their tents. This morning a large number of the dogs were washed and hung out to dry. They have about one hundred dogs and ponies. They are all beauties. The matinee will be given at 3 o'clock this afternoon, and tonight the regular performance will open at 8.15. They will have a large attendance.

We are very glad to know that the parents of the two boys who decided to be suspended from school on Friday rather than submit to one of the other conditions, have had their boys to return to school. This was very wise, indeed, on the part of the parents, and very manly on the part of the boys. To all of the boys and girls in school, and to their parents we ask you to stand by Prof. Crowell and teachers, and you will all be benefited thereby.

Holes are being dug on some of the streets along the arc light line to put up new poles.

That poor squeaked whistle has become very hoarse or else they are not blowing it for all its worth.

W. J. Armfield, cashier of the Bank of Randolph, at Asheville, spent yesterday at his home here.

Wiley Rush, of Asheville, democratic candidate for solicitor of the eighth district, was in the city yesterday and went south this morning.

D. W. Robertson and Eugene Robertson, of Greensboro, spent yesterday in the city.

Misses Blanche and Lucile Armfield and Mr. Westcott Robertson went to Greensboro on the noon train.

Rev. P. J. Carraway passed through today enroute to Greensboro.

Mr. and Mrs. W. M. Nissen, of Winston, who have been spending a few days with the family of R. C. Charles, returned home today.

A Remedy Needed.

Communicated.

When the fire alarm was turned in this morning it is said there was not a horse at the engine house. The black and gray were hitched to the street sprinkler, near the depot. These horses had to be unhitched and ridden at full speed to the engine house, hitched up and driven at full speed to the fire, already tired from their first run. This necessitates considerable delay, and one thing is certain, a fire is not going to stop burning as a matter of accommodation to the fire department or anybody else so long as there is anything to burn. This is a matter that demands the thoughtful consideration and action of those in authority. In most towns the horses connected with the fire department are used for the purpose of getting the steam pump and other apparatus to the fire with as little delay as possible.

WRECKS ON LAND AND SEA.

Cargo of Naptha Explodes on a British Bark

WRECK ON SOUTHERN PACIFIC.

Nine Persons Killed by First and One by Second—Ship Destroyed. Engine and Two Cars Wrecked.

By Cable to THE TELEGRAM.

London, Oct. 17.—An explosion occurred at 6:30 o'clock this morning aboard the British bark Blensfall, from New York with a cargo of Naptha, while the vessel was in the channel near Margate.

The ship was destroyed and nine persons, including the captain, his wife and daughter, and the pilot, lost their lives.

The explosion was seen plainly from Margate, the vessel being only four miles out. She was being towed in by the tug Moke.

Flames followed the explosion and the fire spread rapidly. The masts fell in a few minutes after the explosion.

A TRAIN WRECKED.

By Wire to THE TELEGRAM.

Los Angeles, Cal., Oct. 17.—Southern Pacific overland train No. 3, west bound, was ditched thirty-five miles west of Yuma yesterday. Mail Agent Kellogg was killed. The engine and the mail and baggage cars were wrecked. The accident was caused by the track being buried in sand.

PHILIPPO AGONILLO.

The Representative of Aguinaldo has Arrived in Paris.

By Cable to THE TELEGRAM.

Paris, Oct. 17.—Philippo Agonillo, the representative of Aguinaldo, arrived today and engaged rooms on the same floor with the American commissioners at Hotel Continental. He is anxious to see the commissioners. When asked if the Filipinos would accept the protectorate of America, he said they wanted independence. Could not say if they would fight America as they fought Spain, but thought it would be unwise for America to divide Philippines; they should take all or none. He says he is here to learn the determination of the commissioners rather than influence them. The American commissioners held their usual session this morning and entered the sixth joint session this afternoon.

Negroes Attack Policeman.

Special to THE TELEGRAM.

High Point, N. C., Oct. 17, 1 p.m.—Officer Burns arrested a negro here today and was taking him to the lock-up when two other negroes attacked the officer, knocking him down with knuckles. No whites were present, but officer Bennett arrived in time to help arrest all the negroes, who are now in the guard house crying, "To hell with the damned whites," and still some whites are crying republicanism! Officer Burns was not seriously hurt.

Terrific Weather.

By Cable to THE TELEGRAM.

London, Oct. 17.—Terrific weather has been prevailing on the east coast of Great Britain, and several wrecks have occurred.

A lifeboat belonging at Cambols, Northumberland, was overturned while proceeding to rescue the crew of a French ship. The life boat men, with the exception of one who was drowned, were rescued by the rocket apparatus.

The Mohegan Horror.

By Cable to THE TELEGRAM.

Falmouth, Oct. 17.—Relatives and friends of the victims of the Mohegan disaster are arriving today and proceeding to St. Keverine to identify the bodies. Fifty-one bodies have been recovered. The companies latest bulletin reports eleven of fifty-four passengers saved and thirty-nine of 104 cattle. The crew lost 108.

McKinley in Chicago.

By Wire to THE TELEGRAM.

Chicago, Oct. 17.—President McKinley will review twelve thousand wheelmen tonight, led through the streets by Mayor Harrison. Every man will ride a decorated wheel. The path will blaze with electric effects, and throng with people. There will be a few carnival floats.

Williams Wanderings.

By Cable to THE TELEGRAM.

Constantinople, Oct. 17.—The imperial yacht Hohengaller, with Emperor William and party aboard arrived in the straits of Dardanel this morning and was saluted by the forts.

DEATH IN REIDSVILLE.

One of The Most Popular Ladies in the City Passes Away.

Special to THE TELEGRAM.

Reidsville, N. C., Oct. 17.—Mrs. C. N. Evans, nee Kitty May Penn, passed away Saturday evening at 6:35 o'clock. Mrs. Evans was ill about ten days, but at no time were serious apprehensions of an unfortunate termination entertained. The abrupt closing of the life of one so universally beloved, therefore can but come as a shock.

An added circumstance of sadness is the early bereavement of a loving husband. In December last the wedding of Miss Kitty May Penn to Mr. C. N. Evans was a joyous event, and at the threshold of wedded life the prospect of a blissful future seemed uncommonly bright and the congratulations of the brilliant company were apparently as well founded as they were sincere.

She was esteemed for many rare virtues of womanhood and sought out for her accomplishments and personal graces of disposition. Perhaps no young woman was more deservedly popular in the society of this city.

The funeral services were conducted at the Presbyterian church, this afternoon at 3 o'clock, of which the deceased was a member, after which the remains were laid to rest in Greenwood cemetery to await the final judgment.

Inquest Being Held.

By Cable to THE TELEGRAM.

London, Oct. 17.—The coroners inquest over the bodies of the victims of the Mohegan was begun today.

THE REAL ISSUE.

Under the above heading we printed
a card from Rev. J. H. Weaver, last
Saturday in which he referred to our
comment on an extract from Dr.
Crawford's editorial. Dr. Weaver
thinks we dodged the real issue and
says:

"The church is not complaining
of Mr. Duke's gifts to Trinity Col-
lege, but of her being made a partner
in his business."

If our good friend Dr. Weaver will
read the extract from the Advocate
and our comment again he will, we
think, see that the so called "part-
nership" of the college was not men-
tioned or even alluded to in the clip-
ping, and therefore had no place in
the comment.

The extract referred to spoke only
of the fact that "Trinity College is lo-
cated in a few hundred yards of one
of the large cigarette factories of the
American Tobacco Company, together
with the fact that Mr. Washington
Duke has given large sums of money
to its endowment, etc."

The only two points noticed in the
extract were the LOCATION of the col-
lege and the GIFTS of Mr. Duke. It
will be remembered that the idea of
partnership was only brought out
three or four weeks ago, and we have
not at any time, attempted to discuss
it in these columns. If the question of
church or college partnership in the
American Tobacco Company is the
real issue why was it kept in the back-
ground so long? Why was it not
brought out in place of the ridiculous
and farcical attempt of Judge Clark
to damage the reputation of President
Kilgo? And what relation did the
trial bear to the real issue?

We disclaim any intent to dodge the
issue. It is plain, however, that there
has been dodging done. The matters
complained of before and during the
trial are put in the background. This
fact, we take it, is an acknowledgment
that there was nothing in it, and
anything is welcomed as a substi-
tute. This, we desire to say, we do
not mean for our good friend, Dr.
Weaver. In justice to him we are
pleased to quote further from his card:

"We do not think money has any
moral character. We do not, as a
church, examine its history when it
comes to us. It may have been through
cigarette factories, or whiskey saloons;
but when cigarette factories or whiskey
saloons offer to take us into partner-
ship in their business we cannot con-
sent."

The man who owns the camp at Knox-
ville, R. E. Rhodes, writes a lengthy
letter to the Knoxville Sentinel de-
fending the Third North Carolina reg-
iment, from which we make the follow-
ing extract. We have published some
of the adverse criticisms on this reg-
iment and in justice to the colored men
who compose it we publish this extract,
and would give the whole letter but for
a lack of space:

"Colonel Young has the entire re-
spect and obedience of the entire reg-
iment, and there is no colonel in the
service who has better control of his
regiment than he, and no better disciplin-
ed regiment exists today in the vol-
unteer service. Considering the fact
that they are all new men, scarcely
any of the companies being older than
four months, they are as well drilled
as any fair minded one could expect.
Those who are willing to criticize are
invited to call at any time and study
the situation, as the doors of this reg-
iment stand open for all to enter and
see for themselves. The staff officers
are all intelligent men, who thorough-
ly understand their duties and do not
fail to perform them; in fact, all the
officers are men of high standing in
their homes and understand their du-
ties well, and yet there are those who
will give this regiment a stab now
and then and attribute the acts of oth-
ers to them. I say Mr. Editor, let jus-
tice be done though the heavens fall."

NEGRO SCHOOL COMMITTEEMAN.

Visits a White School in Alamance Which a Lady Was Teaching.

You have heard the democrats
charge that there are negro school
committeemen right here in Alamance
and you have heard republicans say
in answer to that charge, that these
negroes only had charge of the negro
schools. Read this and see what you
think of it:

"I, Miss Alma L. McCulloch, of
Morton township, Alamance county,
North Carolina, do hereby certify:
That in the winter of 1897-98, com-
encing in October, 1897, and ending in
February, 1898, I taught the public
school for school district No.—, in
Pleasant Grove township, Alamance
county; that one of the school com-
mittee who had supervision of this
school was a negro named Solomon
Martin; that while I was teaching the
school this negro committeeman, the
said Solomon Martin, came to the
school on two separate occasions. His
first visit was during school hours and
while I was there in charge. He said
he came to see if the desks had come.
His other visit was before school had
opened in the morning and before I
had come to the school house and was
reported to me by the students. The
students reported to me that Martin
said that the white school, which I was
teaching, would be discontinued the
next day, though as a matter of fact I
was not scheduled to stop the next day,
and in truth did not stop for many
days after this.

Alma McCulloch.
Sworn to and subscribed before me,
this, the 11th day of October, 1898.

E. S. Parker, Jr.,
Notary Public.

(Seal)
White men, what do you think of
this? Miss McCulloch is known to
many of you. She is the equal of any
lady in this or any other country, and,
yet, under this infamous school law,
passed by a fusion legislature, she is
forced to receive visits from a negro
school committeeman while she is in
discharge of her duties as teacher of a
white school right here in Alamance
county. Democrats are pledged to
change this school law and if you are
a white man you want it changed. We
have "mixed" school committees now
and it is but one more step to "mixed"
schools. Are you in favor of that step
and having "mixed" schools? If so,
vote the republican ticket. If you are
in favor of white committees having
charge of white schools and against
"mixed schools," then be a white man
and vote the democratic ticket.—Ala-
manca Gleaner.

PENNSYLVANIA ROADS.

A Plan For Their Improvement Under Existing Laws Suggested.

Professor John Hamilton, deputy sec-
retary of agriculture of Pennsylvania,
has suggested a plan for the improve-
ment of country roads under existing
laws in the state which he believes
will accomplish the desired result.

His plan for the improvement of the
roads is that in their report the board
of viewers should first of all state their
conviction as to whether public neces-
sity demands such a road; that they pre-
sent as part of their report a map show-
ing the courses and distances and also a
profile map showing the contour of the
ground with the cuts and fills marked
and also the degrees of elevation; that
no road, except in extreme cases, shall
have over five degrees grade, and, if
possible, not over three; that the right
of way shall be at least 33 feet wide;
that all streams and ravines requiring
bridges shall be properly marked upon
the map, together with the location of
crossroads, nearby houses and property
which, through which the proposed road
is to run, and that there shall also be
marked on the draft the character of the
soil over which the road is to be
built; that all drawings shall be to a
scale, and that there shall accompany
the report the engineer's estimate of the
probable cost of construction.

Mr. Hamilton also suggests that none
but liberal minded, intelligent, public
spirited citizens be placed upon these
boards of viewers and that the engineer
be thoroughly competent, not only to
run lines upon the ground, but also to
take levels and give estimates of cuts
and fills, with the probable cost of con-
struction. Mr. Hamilton believes if his
suggestions are carried into effect by the
courts it will be but a question of a few
years before a marked improvement is
shown in the condition of the public
highways.

COST OF MACADAM ROADS.

Excavation, Culverts, Fences and Engi-
neering Included.

In response to inquiries as to the cost
of macadam roads we give the follow-
ing, which are the figures in Massachu-
setts, says The L. A. W. Bulletin: Coun-
try highways are macadamized to a
width of 12 or 16 feet. There are but
two of the narrower widths in the state
as yet. In villages the width varies
from 18 to 24 feet, and the depth is ac-
cording to traffic. On sandy, gravelly
or porous soil the broken stone is laid
to a depth of six inches, and on clay or
wet soil telford is laid to a depth of
eight inches and covered by four inches
of broken stone, with a layer of gravel
from two to four inches in depth on top
of the clay and beneath the telford.

The cost includes excavations, drains,
telfording, gutters, culverts, fences,
monuments and engineering in addi-
tion to the macadam. At the end of
1896 the average cost of the 107 miles
completed was \$10,360—macadam, \$5,-
465, and miscellaneous, \$4,884:
Average cost per mile of grading, \$1,351 00
Average cost per mile of drains, 100 18
Average cost per mile of telford, 78 81
Lowest cost per ton of broken stone, 1 16
Highest cost per ton of broken stone, 3 10
Average quantity per mile of broken
stone, tons, 8,000
Highest quantity per mile of broken
stone, tons, 4,400
Lowest cost per mile macadam, \$3,000 00
Lowest cost per mile completed road, 5,200 00
Highest cost per mile completed road, 23,000 00

DEPTH OF MACADAM.

The Thicker the Road the Greater the
Area of the Base Sustaining the Load.

Many so called macadam roads con-
sist of a few inches of broken stone laid
on the surface of the ground without
any provision for preventing the stones
from spreading under the pressure of
loads. There should be made a trench
of the width and depth intended for the
roadbed. For light traffic six inches of
stone on a good foundation will answer,
but for heavy traffic this is not suffi-
cient.

The pressure of a load passing over a
compact road spreads out through the
body beneath in conelike form, the apex
being at the load on the surface. With
a depth of but 6 inches the weight at
the bottom will be spread out over 36
square inches; if it is 9 inches deep, the
weight on the foundation will spread
over 81 square inches, and if 12 inches
deep it spreads over 144 square inches.
Depth of roadbed means strength. The
area of the base sustaining the weight
of the load increases as the square of
the depth. A road 12 inches deep is four
times as strong as one six inches deep.

A Great National Highway.

"A great national highway might be
constructed," suggests General Roy
Stons, "called perhaps 'the Great Road
of America,' which should first join to-
gether the states along the Atlantic sea-
board, then strike across the country on
a central line, say from Washington to
San Francisco, joining there another
line which connects the states on the
Pacific coast; this road to be built not
by the general government alone, but
by the states, under such arrangements
as they may make within their own
borders, and by the government through
the territories and its own lands and
reservations; built not by taxation of
the states or the people, but practically
out of its own benefits."

Road Notes.

Foreigners are said to describe our
turnpikes as "dug out bridge paths."

Rhode Island is the only state to have
a college where the students in addi-
tion to regular branches are taught the
art of roadbuilding.

Conway W. Sans, chief consul of the
Maryland division L. A. W., states that
\$143,000 was used on the roads in Bal-
timore county last year almost without
results.

The suggested plan of road improve-
ment in Connecticut proposes the build-
ing of one great state highway east and
west and another north and south across
the state, with low grades, and touch-
ing, so far as possible, the places of
larger population.

DR. KILGO'S DOCTRINE.

A Proposition to Discuss His Religi- ous and Educational Views.

To the Charlotte Observer: In the
Observer of the 1st and 8th, W. T. Mc-
Mullan expresses great love for Meth-
odism as taught by the fathers, but
does not endorse the religious and edu-
cational views of Dr. Kilgo.

I propose that we eliminate all criti-
cism and recrimination, avoid all
abuse and misrepresentation, all harsh
language and discuss Dr. Kilgo's reli-
gious and educational views in a
calm, dignified and christian manner.
That there may be no mistake as to
what we are discussing, I submit the
following proposition: What religious
doctrine does Dr. Kilgo advocate, or
what educational views has he that
are not in harmony with the teachings
of the fathers?

I affirm that his religious and edu-
cational views are in harmony with
the teachings of the fathers. We have
had enough of vague suspicions, I be-
lieve they say so. We want some facts.
L. W. McMullan.

Millions Given Away.

It is certainly gratifying to the pub-
lic to know of one concern in the land
who are not afraid to be generous to
the needy and suffering. The prop-
rietors of Dr. King's New Discovery for
consumption, coughs and colds, have
given away over ten million trial
bottles of this great medicine, and
have the satisfaction of knowing it
has absolutely cured thousands of
hopeless cases. Asthma, Bronchitis,
Hoarseness and all diseases of the
throat, chest and lungs are surely
cured by it. Call on C. E. Holtan,
druggist, and get a trial bottle free.
Regular size 50 and 81. Every bottle

AN OUTRAGEOUS ACT.

Negro Uses Sling Shot on a Young
White Boy.

Geo. Davis, an eighteen year old lad
who is employed by Messrs. W. P.
Oldham & Co., at their produce com-
mission place on Dock street, was hit
in the eye with a missile from a sling
shot yesterday and painfully if not
seriously injured. Young Davis was
driving a delivery cart for his em-
ployers and was engaged in delivering
goods in the southern section of the
city. While on South Seventh street
with his team he was hailed by a ne-
gro boy. As he turned to answer the
negro, the latter drew the sling and
shot it, the missile striking Davis in
the right eye inflicting a painful in-
jury. The injured boy drove imme-
diately to a physician and was given
medical attention. His assailant was
not arrested.—Morning Star.

Truth wears well. People have
learned that DeWitt's Little Early
Risers are reliable little pills for
regulating the bowels, curing consti-
pation and sick headache. They don't
gripe. Howard Gardner.

The Definition Stands.
Before the white men redeemed the
State in 1876, the class of men who
helped the negro to lord over their
white brethren were known as "scalawags."

Since the negroes and their allies
have returned to power, the scalawag
has again become a prominent factor
in our political life, and it becomes in-
teresting to have a definition of a
scalawag. The venerable Dr. William
Closs was called as a witness in Greasy
Sam Watt's court on one occasion. In
his testimony he had occasion to use the
term "scalawag" when he was inter-
rupted by Watts, who asked him to
give a definition of a scalawag. The
venerable divine said:
"A 'scalawag' is a native Southern
white man who says that a negro is as
good as he is, and tells the truth when
he says so."—News and Observer.

Made The Governor Mad.

Governor D. L. Russell registered
yesterday in the first division of the
Fourth ward. When he went to regis-
ter, Mr. T. G. Pickett, one of the regis-
trars, asked him where his residence
was. He replied that his home was at
No. 105 South Second street, and the
register made him hopping mad by
out his residence. He informed the
register that he had not and his name
was entered on the books.—Will. Mes.

Three Doctors in Consultation.
From Benjamin Franklin.
"When you are sick, what you like best is
to be chosen for a medicine in the first place;
in the second place, what reason (i. e. Theory)
says is best is to be chosen in the last place.
But if you can get Dr. Inclinatio, Dr. Experi-
ence and Dr. Reason to hold a consultation to-
gether they will give you the best advice
that can be taken."

When you have a bad cold Dr. In-
clination would recommend Chamber-
lain's Cough Remedy because it is
pleasant and safe to take. Dr. Experi-
ence would recommend it because it
never fails to effect a speedy and perma-
nent cure. Dr. Reason would recom-
mend it because it is prepared on
scientific principles, and acts on na-
ture's plan in relieving the lungs,
opening the secretions and restoring
the system to a natural and healthy
condition. For sale by C. E. Holton.

A Decision As to Prize Money.

Charleston, S. C., October 15.—In the
United States district court here today
Judge Brawley handed down an opin-
ion in the Rita prize money case. The
question at issue was whether all of
the crew of the Yale should share in
the money or merely those who were
enlisted regularly in the United States
navy. Judge Brawley decrees that all
the crew shall share in the proceeds in
the sale of the ship. The Rita was
bought by the government for \$125,-
000. Captain Wise, of the Yale, will
receive \$9,000.

More than twenty million free sam-

How to Prevent Croup.

We have two children who are sub-
ject to attacks of croup. Whenever
an attack is coming on my wife gives
them Chamberlain's Cough Remedy,
and it always prevents an attack. It
is a household necessity in this county
and no matter what else we run out of,
it would not do to be without Cham-
berlain's Cough Remedy. More of it
is sold here than of all other cough
medicines combined.—J. M. Nickle,

A Clever Trick.

It certainly looks like it, but there
is really no trick about it. Anybody
can try it who has lame back or weak
kidneys, malaria or nervous troubles.
We mean he can cure himself right
away by using Electric Bitters. This
medicine tones up the whole system,
acts as a stimulant to liver and kid-
neys, is a blood purifier and nerve
tonic. It cures constipation, head-
ache, fainting spells, sleeplessness
and melancholy. It is purely vegeta-
ble, a mild laxative, and restores the
system to its natural vigor. Try
Electric Bitters and be convinced
that they are a miracle worker. Every
bottle guaranteed. Only 50c a bottle
at C. E. Holton's drug store.

An extra baggage coach on the local last night contained three horses and two beautiful Shetland ponies and carriages which belong to Col. Cowan. He is a high official of the Southern railway.

Came After Medicine.

A resident of Proximity came to town early this morning and being a little cold immediately went into consultation with a bottle of tanglefoot. The tanglefoot worked in the usual way, and in a short while the imbibitor lost control of his legs. He started home about 9 o'clock and half an hour later was found way out of his course by a policeman who took him in tow. The fellow just then remembered that his children were sick and his wife had sent him to town after medicine. The officer had heard such tales before and locked the fellow up.
